I'm going to end up in a psychward for a third time, or something worse.

I'm just continually being told to look at myself, and goto rehab. they have been threatening my life and the life of my family members if i don't go-to rehab. i have been sober for months and never have been a criminal.

please for the sake of my family look into what your co workers are up to.

i have ran out of options and am resorting to sending such crock like emails, but this is a real and serious thing. look into what is going on. national resources is the only name i have been given on how they are doing this.

this is the second time I'm reaching out..

please look into the actions of the people in your office. it's been over 6 months and I'm still constantly harassed 24/7.

my name is matthew roberts, i live in carbondale 179681108

I'm not a criminal and I've never been one. people i believe from your office are harassing me, they are insisting i either go-to rehab, or kill myself. I've been sober for a couple months and I'm still being harassed.

I've picked up these names from them bickering between each other while harassing me.

marc, chris, justin, jason, brian, jeff..

please look into what your staff has been upto.

no one deserves to be treated like this.
