Subject: MATTHEW ROBERTS' CIA TARGETING UPDATE  
Date: 23.11.2024 09:06:29 (-0500)  
Attachments: Full\_Disclosure.docx (3 pages)

IT'S BEEN 6 MONTHS SINCE THE 2 YEARS I SPENT RESEARCHING WHO NATIONAL RESOURCES IS TOLD ME THEY ARE THE DOMESTIC DIVISION AND I SPENT THOSE 6 MONTHS BEGGING EVERYONE TO END THIS.

THEY ARE NOT GOING TO STOP THEMSELVES SO I AM COMMITTING TO EXPOSURE.

THEY ARE CONSTANTLY INFORMING ME "YOU ARE KILLING YOURSELF."

THEY ARE GOING TO KILL ME IS THE MESSAGE I'M GETTING.

I DO NOT ENTERTAIN THOUGHTS OF SUICIDE. I WILL NOT BE KILLING MYSELF.

IF THEY MURDER ME IT IS ON YOU FOR NOT STOPPING THEM.

YOU HAVE BEEN INFORMED.

I LEARNED WHO THEY ARE FROM THE PROBABLY ONLY FEMALE CONNECTED WITH THE DRUG TASK FORCE. TALK TO HER IF YOU'RE STILL UNSURE THIS IS REALLY HAPPENING.

IT'S BEEN 2.3 YRS AND THIS IS STILL GOING ON. IT IS NOT MENTAL ILLNESS.

WAKE UP. MARK AND CHRIS ARE UP TO EVIL. FOR YEARS.

YOU ARE ALL TERRIBLE PEOPLE AND I HOPE THE BEST FOR YOU.

## Full Disclosure of What I Know About Non-Human Intelligence Technology

The CIA is using this RNM NHI technology to covertly surveil the minds of joint investigation targets nationwide. It's easy to surmise they are covertly compromising the minds of absolutely anybody they choose with impunity. Likely 99% of covert targets will never know that their minds have ever been compromised. They are also using this same technology for an illegal unethical non-consensual nationwide human research program running PSYWAR training operations running 24/7 torture PSYOPs using mentally ill targets to provide cover.

The only reason I am allowed to disseminate what I know is because exposure is part of their agenda. I am terrified of being a part of this agenda and believe they will soon change their minds about allowing this. It would be wise to capitalize on this exposure opportunity while you can because it's never ever going to happen again.

Everything I know is because I was covertly surveilled May 2020 – May 2022 for a joint CIA/Lackawanna County DA investigation I was mis-targeted for and even though I wasn't an intended target thrown in the program anyways with my 24/7 torture PSYOP starting May 2022. It's been a perfect storm of incompetency running rampant from the start of the initial failed investigation fully exposing themselves, this technology, and program. I've been able to establish enough from reverse interrogating and direct exposure but most of what I've been able to ascertain comes from human-error and a female whistleblower operator and her June 2022 phone call.

The technology being behind these insidious programs is a hard pill to swallow and confirms suspicions of CIA collusion with NHIs. It is an undetectable microchip-less non-invasive brain-to-brain-computer-interface remote neural monitoring non-human intelligence psychotronic hive-mind/surveillance technology operating extra dimensionally that broadcasts your mind to standard modern day surveillance monitoring equipment and has 2 way communication and nervous system manipulation capabilities with your mind being linked to another mind via B2BCI that acts as a receiver and hub to broadcast to regular analog operators. This technology is so easily kept as a secret because all of the technology on the receiving end where they are monitoring you is completely standard off the shelf nothing fancy modern day technology except the completely invisible receiver mind B2BCI. Nothing seems out of the ordinary or suspicious even to those directly involved and I surmise its NHI origin is need to know. I'm not sure if it is sentient and self pilots or if it's controlled remotely but when this technology came for me I had the one and only out of body experience I've ever had in my life. Relaxing while laying down on a cot about to take a day-nap for a brief moment my vision had become its vision seeing from its point of view in first person as it floated down the machine shop at a brisk pace into my room and without hesitation into my body. I've heard of astral projection and thought somehow this had happened to me randomly. Thinking I had just experienced my own returning to my body I did not see it as much of a significant event; I did not see it as a threat. There was nothing malicious feeling and I had no clue this was a mind compromising event. I would have never thought about this experience ever again if I wasn't forced into the technology's exposure. It's clear they erred while attempting to catch me sleeping as to avoid me having the non-threatening unique but unmemorable mind invasion OBE. I believe this is a rare occurrence to allow any OBEs and covert targets will never have one.

There is no confusion that the voices you hear coming from the hive mind communication of this technology could ever be from anything other than an external source because it's delivered to your brain's auditory cortex and not your inner voice's inferior frontal cortex. The voices you hear are just that, voices and not thoughts. Your mind is linked to another on their side but they are behind a firewall and you don't receive any mind to mind connections for their own safety. I first started occasionally hearing voices of cops clearly watching surveillance monitoring equipment having shift rotations updating the next officer of the current day's affairs and sometimes even talking about sports in 2021. I figured I was hearing them as a psychological tactic to make me paranoid and surmise they can shut their outgoing communications off at will. Being surveilled didn't bother me much because I never do anything that I'm embarrassed of. So I never looked for the source of the voices assuming that they were physical bugs in multiple places and I'd just look like a fool trying to find something that I probably wouldn't find anyways. Even after my PSYOP started I still had the hardest time coming to accept the reality that the hive mind communication is in my mind and I figured I could hear them in my head but no way they could hear my thoughts so all of my interactions with them were vocally for awhile. The communication's sound level stays

stable at a quiet but comprehensible level with a handful of times being quieted to the point that you can't make out what they're saying as an offensive tactic but the sound level has luckily never been amplified to be used as a weapon. The 24/7 torture PSYOP is the abuse of the hive mind collective used as a weapon to psychologically torture you 24/7 with constant provoking, humiliation, negativity, intimidation, criticism, gas lighting, and chatter from amongst themselves. They are spending 1,000,000 a year to pay 2-3 cops/detectives 24/7 365 days a year.

This RNM NHI technology converts not only your visual cortex but coalesces your auditory cortex with your inner monologue's inferior frontal cortex making your thoughts indistinguishable from your voice/hearing taking all concurrently into a single digital data stream for mass broadcasting to completely standard off the shelf regular modern day audio and video surveillance monitoring equipment, headsets, and very likely even telephones. They literally hear your thoughts out loud with regular operators often asking the person your mind's linked to who can complete your fragmented thoughts like they were their own to repeat or complete your thoughts that are cut short or fragmented. Your consciousness is broadcasted remotely to mobile headsets anywhere in the real world and to a main operations base (mines in Carbondale PD operating out in the open) onto video/audio monitors with a standard 2 operators at a time dealing abuse 24/7 in shifts. Easy to surmise they can broadcast to desktops and mobiles and even other bases across the country because sometimes I hear voices I don't recognize and they aren't going to be in Carbondale. The first month of the PSYOP I was stalked and tormented in person and I'd hear and see 5-6 of these plain clothes cops simultaneously in real life and in the PSYOP and sometimes they'd run special operations getting many operators connected at the same time, around 7-8 people, to inflict severe trauma to me as a group which was very effective but too messy exposing names. Whenever I breakdown manically I just beg them to just kill me already and their responses are always cold responses like: "You're Going to Do It Yourself." Most of what I've been able to ascertain comes from having too many operators or passerbys being called in to see the abuse that's happening with some examples as: "What's that a bad connection? No he's just blinking." "Jason what did he say?" "Hey Jeff come check out what he's going to do." "Shut your mouth." "Why don't you just arrest him? We only have one controlled buy against him." "Somebody call Chris."

B2BCI means you are connected to another human mind on the receiving end but it's only a one way connection. They are linked to your mind so thoroughly they can complete your fragmented or abandoned thoughts like they were their own. No one can read your memories or go through your past but the operators can easily manipulate you into thinking what they want to know about. They only have live access to your consciousness, what you're thinking of directly in the moment, but there is nothing you can hide from them there. They can instantly figure out most of your secrets even if you only think of one for a nanosecond. And there is no lying unless you happen to be pathological about it; they know what you know and if it's a lie or untrue and you know it they know it

From what I am experiencing this technology isn't malicious in nature and they've weaponized it for covert surveillance and overt destruction of their victim's minds. It feels like its intended purpose is for a benevolent beneficial collective hive mind with safeguards protecting users from acting against the collective's definitive judgment. What should be a collective mind for sharing wisdom and knowledge is instead a conglomerate of hate with the overt purpose of psychologically driving one so far against themselves to commit suicide. I've experienced 2 different nervous system attacks to aide in the relentless 24/7 torture PSYOP's goal. The attack I've suffered the most of is a completely beyond inhuman level of anxiety being forced upon you. Anxiety far beyond anything humanly possible that cripples you so completely you can't do anything but curl up in a ball and desperately consider suicide. This is a barely survivable experience that will last for hours and I've been put through it more than a few dozen times. The other attack that's been used against me over a dozen times is one that gives you tetanus like symptoms. Like tetanus there is varying degrees of intensity with light symptoms of lock jaw, speech impairment, and muscle cramping and intense ones forcing your body to contort and lock into impossible positions making it hard to even breathe. I've been able to suffer through 30 months of this extreme abuse so far because I just do not entertain the thought of suicide. And one time I had what I can only describe as a "kill event" happen. As a show of force the DA stopped my breathing. "Open your mouth and embrace death." This was a terrifying experience that is hard to describe because it didn't feel as if I was being strangled but felt natural. I knew I had to breathe but there was just nothing there. It didn't feel like the command to breathe was missing, it felt like I never had the ability in the first place. I figured my fear of drowning was coming true without

water and was a very long panicked moment before I could breathe again. My thoughts being that these attacks are for ensuring groupthink in proper use of the technology. To keep the receiver from acting against the hive.

Aside from the 24/7 torture PSYOP running since May 2022 the CIA/DA has also used Directed Energy Weapons against me. There have been 4 separate DEW attacks against me at 2 different locations throughout 2023. These encounters are the most truly terrifying single experiences I've ever had. Each time it felt my death was imminent and was made clear to me it might be. I'm not sure if being able to hear them do this to me is scarier than if I was clueless of it. These attacks all happened at night with the first attack having a hot spot on my hand waking me up. I sat up in bed confused of the source while it lost some intensity and began traveling up my arm. At first it just warm but by the time it traveled to my head you could feel the radiation. This felt inherently like what being in a microwave would feel like but in a small targeted quarter sized area. Absolutely mortified not knowing what to do I just froze solid laying down to minimize additional damage and it singled in on a specific part of my brain just above the base of my neck on the left side and held position there for a few minutes. During all this I was describing my experience to the hive mind and they were amused by themselves with the guy directing the DEW saying "Well he's not lying." One attack I could smell burning hair but couldn't find from where. These DEWs being used on me are targeting specific areas of my body from varying angles. Even if you could see through walls you couldn't get a direct line of sight to do this establishing these DEWs as being intimately close and NHI in origin that is possibly self targeting. I hadn't heard of Havana Syndrome or even DEWs before but a search describing my experience resulted in this being wide spread. I didn't receive any discernable burns or brain damage but without question they could damage or kill at will. They weren't demanding anything of me or anything; the only reason for these attacks was for the pure joy these people get from absolutely traumatizing me.

To confirm NHI collusion just investigate the CIA's activities in northeast PA: Scranton FBI, Lackawanna DA, Dunmore SP Barracks, Carbondale PD, and all the area's drug and alcohol rehabs. Rehab is where they remove and reacquire this tech. Find the female directly connected to the DA's drug task force in 2022 she is the source of the whistleblower phone call exposing the DA and National Resources by name. The fact I've been outing the domestic CIA for 2 years without even knowing it makes my claims worth investigating and the resolute stonewalling of my repeated attempts to get any local, state, and federal authorities to even discuss this with me has exposed the new MKULTRA they put me in that is targeting the mentally ill. The CIA has full control of their victims narrative keeping their actual targets from ever being recognized in a sea of other mentally ill people they've encouraged to have the same source to blame for their psychosis. There is enough Targeted Individuals vehemently claiming of external abuse to warrant investigation but the CIA's extensive disinformation PSYOPs like their fake advocacy non-profit Targeted Justice are keeping them from getting the real advocacy they need.

May 2020 the CIA National Resources Division was in Scranton PA aiding the Lackawanna County DA with surveillance operations and without vetting false Intel I was targeted for an investigation. May 2022 they started my 24/7 torture PSYOP with the DA running it from Carbondale PD. Mark Powell and Chris Kolcharno are the leads and some of the operators are Jason, Brian Bognatz, Jeff Arthur, and retired detective Joseph Jordan. Dunmore state police barracks, Scranton FBI, and PA Attorney General has overtly confirmed their involvement.

Normal rational people are complicit by nature finding the cruelty, collusion, corruption, and conspiracy all far too much on their own to ever to be anything but impossible combined. This is happening everywhere out in the open and its right in front of your faces. Nov 13<sup>th</sup>'s congressional hearing all but confirms NHI collusion and if you investigate the CIA's activities in northeast PA you will confirm nobody is safe from psychotronics. A new church committee needs to be put together. A paradigm shift of neuroprivacy needs to happen. Act on this now.

No amount of brain damage, mental illness, or creativity could fabricate this information. I am a 40yr old nobody who has never bothered anybody and have always had a healthy attitude towards all law enforcement and government institutions who would never disseminate what I have been able to ascertain as fact if I wasn't certain. Your own neighbors are not like you and the deep state is closer to home than you could ever imagine. If there was any chance I could be wrong I would just accept my crazy and never ever embarrass my family like this.
